

Argent World Services, LLC. (AWS) has been in the military/government contract and supply arena since 2010. We are a woman owned small business located in Spring, Texas, and its COO is a service-disabled United States Army veteran. AWS provides products and services CONUS & OCONUS, assisting the warfighter, US Embassies, FMS, multiple USG Agencies and Prime Contractors, all while keeping costs low for the U.S. taxpayer due its aggressive manufacturer negotiations for volume discount contract vehicles. We have built flexibility into the ever-changing global supply chain process. By constantly adapting, overcoming, and improvising from the problems of a global supply chain, we anticipate the overall impact to our USG customers with our seasoned staff of prior service veterans and civilians. Having several thousand global vendors in our network, we can speed up deliveries of shipments to help the war fighter and our diplomatic missions to stay on target. As we continue to grow our global base of USG and FMS customers, we have become a turnkey operation as an overall Mission Critical Solution Organization.
